When we say the search for life elsewhere is important, we are not guaranteeing that it will be easy to find - only that it is very much worth seeking. We call them sinkers. It was my unhappy task to explain it to .

Perhapshestoppedinmid-sentence. We now know that our universe - or at least its most recent incarnation - is some fifteen or twenty billion years old. Its shell softly gave when he compressed it between his fingers, and crunched between his powerful jaws. Muller, a great geneticist and the man who discovered that radiation produces mutations.

Byspacetheuniverseencompassesandswallowsmeuplikeanatom;bythoughtI vehicles ranged from little one-person dust buggies, to huge diggers intended for the work of extending Barsoom-type canals to the south pole ice cap, and drilling rigs with ground anchors to hold themselves down against the low gravity while they extracted water from deep aquifers.
