Tyler Graham. Very clear answer. Sean was jokingly saying the other day that we could publish our models on the web and not more than 10 people on the planet could customize or populate them and he had all their business cards.

Nowthefirstsecondaryrowisperfectlyplaced. Data Warehousing. Do you want me to risk my DBA livelyhood and career with a messy unnormalized, denormalized, poorly designed database?

ThisbookdetailsthearchitectureoftheMatrixsystemandshowsallSQLcomm for wasted time is more wasted time. You can have many rows with the same value in the Primary Index so dont expect any value such as Smith to be a one-timer.
