I find evolutionary psychology fascinating, but its theories are often very hard to validate empirically, or to falsify. In all cases, the women—both straight and lesbian—measured an increase blood flow and wetness.

Really quite disappointing. Women don't want sex with strangers. As he explores the answers to a number of fascinating questions, Bergner debunks myths and looks at the future of female sexuality, including the possibility of a "female Viagra. You just clipped your first slide! And Angel presents a meditation on desire that combines the intellectual and the confessional. WordPressShortcode. I'm back!
